

CONNECTING THE GLOBAL SENSOR COMMUNITY

MEDIAPACK**2020**

Welcome to: **Sensor Solutions** portfolio

SENSOR TECHNOLOGY is evolving consistently and is an integral part of all the major industries. Sensor systems and electronic instrumentations are highest growing segments in the semiconductor market. The future of the global sensor market looks bright, with opportunities in the industrial, healthcare, consumer electronics, automotive, and aerospace/defence industries.

The rising demand for sensors and key drivers for this robust market growth include technological evolutions, the growing adoption of the Internet of Things (IoT), growing usage of sensors in smartphones, strong demand in the automation industry (Industry 4.0), growth in the automotive industry, increasing demand for wearables, increased use of image sensors in applications like cameras, increased use of fingerprint sensors for various purposes and miniaturization of sensors.

Sensor technology is driven by key factors such as low cost, chip level integration, low power and wireless connectivity. Advancement in technology and miniaturization of devices has driven the market growth in recent times. High demand in consumer electronics and automotive industry has positively impacted the market demand owing to numerous applications of sensors in these sectors.

In addition to factors such as time to market and price sensitivity posing a challenge, the fluctuating global economic conditions could hinder the sensor market.

Sensor Solutions portfolio will cover the evolving landscape with news, views, and features supporting the industry as it develops.

The Sensor Solutions portfolio includes:

- **Sensor Solutions Website:** www.sensorsolutions.net/home
- **Sensor Solutions Weekly Newsletter:** Global broadcast to 23,000
- **Sensor Solutions International**
- **Sensor Solutions Webinar**

productoverview

EVERY WEEK topics will include research, analysis, news, opinions, and new technology for the whole supply chain from materials, through devices, including applications and systems. Sensor Solutions will consider the industry drivers and report on changes that could affect the industry in sectors such as:

- **Transport:** ADAS, EV and autonomous vehicle platforms: Electronic control systems in today's cars require sensors that perform reliably in the harshest condition
- **IIoT*:** Leading industrial and consumer (IoT**) strategies: Sensors enable the Internet of Things (IoT**) by collecting the data for smarter decisions
- **Health:** SoCs for diagnoses and wellbeing: Electronic systems in medical equipment, devices and probes rely on sensor signals as a basis for control activities, accurate diagnosis and treatment
- **Flight:** Aviation and aerospace frontiers: Today's aircraft are more connected than ever before to make flight more efficient and safer. Pilots and ground crews require more information at faster speeds to manage increasingly complex aircraft systems
- **Automation & Process Control:**
Sensors for factory automation, manufacturing process and control, hydraulics and pneumatics and machine health monitoring
- **HVAC/R and Building Equipment:**
Sensors play a major role in regulating heating, ventilation, air conditioning, and refrigeration systems
- **Industrial and Commercial Transportation:** Sensors provide data under harsh conditions with accuracy and reliability
- **Test and Measurement:**
Test and measurement supports the sensing needs of customers who are involved in test programs, product research, development, test and evaluation
- **Data:** Effective acquisition, access and analysis: Sensor designers and manufacturers are seeking means to maximize the potential of data analytics to expand revenue streams while legacy analytical organizations are seeking new ways to acquire data and increase accuracy
- **Research and analysis:**
What's new in the lab?

*Industrial Internet of Things

Website **home** page **advertising** options

The screenshot shows the Sensors Solutions website home page. The layout includes a top navigation bar, a main content area with various news and product highlights, and a footer with navigation links and contact information. Several advertising options are highlighted with yellow boxes and lines:

- Leaderboard Banner** (1484 x 122 Site wide) £1200 per month: Located at the top of the page, featuring the EV Group logo and a headline about leading wafer processing solutions.
- Right Button Banner** 223 x 223 £500 per month: Located on the right side of the page, featuring a headline about the latest sensor news.
- News Banner** 426 x 90 £900 per month: Located in the middle of the page, featuring a headline about the latest edition of Sensor Solutions Magazine.
- Box ad** 480 x 100 £1000 per month: Located in the middle of the page, featuring a headline about the latest stories.
- Supplier Directory** 480 x 100 £600 per month: Located in the middle of the page, featuring a headline about the latest videos.
- Video 340 x 170** Bring your company and products to life via sight, sound, and motion: Located in the middle of the page, featuring a headline about the latest news.
- Floor Banner** 1484 x 122 Always present in the browser window, the Floor Banner draws users' attention to the same place, regardless of how they interact with the page: Located at the bottom of the page, featuring a headline about the SSI International Conference.

All banners and logos must be supplied as GIF, JPG with "alt" text and a URL to which to link the banner or logo. Advertisers must warrant that they have tested adverts for technical stability on Internet Explorer, Firefox, Opera, Safari and Google Chrome browsers prior to supply. For the purposes of these guidelines, stability is defined as not causing error messages, dialogue windows, excessive CPU usage, browser crashes or system crashes.

weeklyemailnewsalerts

THE EMAIL NEWS ALERTS deliver the latest industry news direct into the inboxes of our subscribers and provide our news alert sponsors a fantastic opportunity to get their message seen by over 20,000 industry professionals.

Sponsors enjoy:

- A sponsor's message (up to 50 words)
- A 468 x 60 banner
- Cost: £1,500 / €1,800 / \$2,400

Custom HTML email shots

Are you launching a new product? Would you like your company, products or services to reach over 20,000 industry professionals?

If the answer is yes, then our custom HTML email shots are for you. This service will allow you to send an email shot, branded within your corporate style to our database. This will give your company a massive exposure to your target market. You can create the html newsletter and we send it out, alternatively you can use our in-house multimedia team to create the HTML for you.

3 EVENTS **2** DAYS **1** TICKET

31 March - 1 April 2020

Sheraton Brussels Airport Hotel, Belgium

One ticket gives you access to a 2 day event which will see 3 groups of device makers gathered under one roof.

Hear over 100 presentations covering the entire spectrum of the compound semiconductor, integrated photonics photonics and global sensor supply chain.

Angel Webinar

A webinar without the right audience is worthless!

Dedicated webinars for the sensors industry:

Reach the right audience

Using our 30+ years' experience in semiconductor B2B vertical technical markets, and as the publisher of Sensor solution portfolio we now offer effective webinars, webcasts and virtual events. We help you get your message, to your desired audience, by marketing to over 20,000 sensor Industry professionals. We offer access to the right audience at the right time.

In addition to organising and managing your webinar, we can also market your webinar to our specialist Sensor's database.

We deliver the audience!

In a dedicated 6 week program we will promote through our magazine, newsletters, LinkedIn group and website.

We can also provide the webinar moderator, from our team of highly respected editors and researchers.

Not sure what to say? Let our editors work with you and help you with the content.

Harness the power of a webinar

● **Brand Awareness**

Increase the global awareness and reach of your brand by running sponsored webinars, webcasts and virtual events which also have the possibility of generating revenue

● **Lead Generation**

Generate and mature leads through the use of online events. Then analyse, qualify, and understand their buying behaviour

● **Thought Leadership**

Become the voice of knowledge by generating compelling content via online events

Don't take our word for it. We organised and marketed a webinar for Oxford Instruments and we managed to deliver over 350 highly targeted participants. Here is what they had to say:

"The webinar organised through Angel was handled extremely professionally and ran very smoothly, from organising the presentations, to briefing our speakers and the actual webinar itself on the day. We were very pleased with the number of participants we attracted on the day, and the fact that the webinar is now available to view on demand, as this in itself is a useful marketing tool for us."

Find out how Angel Webinar can help you organise and run a webinar within the power electronics industry
